Platform Partnership Agreement

Date: **___**

Between:

1. **Niall Clarke** ("Party A") — Business lead, brand owner (EntryLab)
2. **Sacha Cassar** ("Party B") — Technical lead, platform developer

---

1. Purpose

This agreement governs the partnership between Party A and Party B for the development, ownership, and operation of a B2B multi-tenant platform (the "Platform").

The Platform is a separate entity/product from any individual tenant brand operating on it, including but not limited to "EntryLab."

---

2. Ownership & Equity Split

Asset	Party A	Party B
The Platform (B2B SaaS)	70%	30%
EntryLab (tenant/brand)	100%	0%

- Party B's 30% equity covers all Platform revenue, intellectual property, and decision-making rights as outlined below.
- Party A retains full ownership of the EntryLab brand, its customer relationships, and any revenue generated *outside* of the Platform.

---

3. Definition of "The Platform"

The Platform includes, but is not limited to:

- All source code, architecture, and infrastructure developed for the multi-tenant system
- The tenant management system (onboarding, billing, admin)
- Any shared features, APIs, integrations, and services built for use by tenants
- The hosting infrastructure and deployment pipelines
- Any documentation, technical designs, or specifications created for the Platform

What is NOT the Platform:

- The EntryLab brand name, logo, marketing materials, and customer relationships
- Any content, data, or assets uploaded by EntryLab as a tenant
- Revenue generated by EntryLab through activities unrelated to the Platform

---

4. EntryLab as a Tenant

EntryLab shall be treated as a tenant of the Platform and will pay a monthly licensing/SaaS fee to the Platform entity, as any other tenant would.

- **Initial rate:** €____/month (to be agreed before development begins)

- This rate may be below market rate during the first 6 months ("launch period") but must be formalised and paid.
- After the launch period, the rate will be reviewed and adjusted to reflect fair market value.
- All licensing fees paid by EntryLab flow into Platform revenue, of which Party B receives 30%.

Rationale: Party B is contributing significant unpaid development time. Without EntryLab paying into the Platform, Party B's 30% equity generates no return despite being the sole builder of the technology.

---

5. Sweat Equity & Time Valuation

- Party B's contribution during the development phase is valued at a notional rate of €___/hour.
- A log of hours worked shall be maintained by Party B and shared with Party A on a monthly basis.
- This valuation serves as the basis for any compensation claim if the partnership dissolves before Party B has received equivalent value through profit distributions (see Section 9).

---

6. Financial Responsibilities

- All operational costs for the Platform (hosting, APIs, third-party services, domain registration, etc.) are the responsibility of the Platform entity, NOT Party B personally.
- During the pre-revenue phase, Party A agrees to cover or pre-approve all necessary operational costs.
- Neither party shall incur costs exceeding €___ without written agreement from the other party.

---

7. Decision-Making

Domain	Primary Decision-Maker
Technical architecture, stack, and implementation	Party B
Feature prioritisation and product roadmap	Joint (both parties)
Business strategy, pricing, and sales	Party A
Branding and marketing of the Platform	Joint (both parties)
EntryLab brand and operations	Party A (sole)

- Major decisions (defined as anything involving spend over €___, partnerships, pivots, or changes to this agreement) require written agreement from both parties.

---

8. Six-Month Review Checkpoint

At the 6-month mark from the date of this agreement, both parties will conduct a formal review covering:

1. Platform development progress and status
2. Number of tenants onboarded (including EntryLab)
3. Total Platform revenue generated
4. Hours invested by Party B

If the Platform has not generated meaningful revenue by this point, the following options are available:

- **Option A:** Party A begins paying Party B a monthly retainer/salary for continued development, amount to be agreed.
- **Option B:** The equity split is renegotiated to reflect Party B's disproportionate contribution.
- **Option C:** Party B may exit the partnership and retain rights as outlined in Section 9.
- **Option D:** Both parties agree to continue under current terms for a further defined period.

The review must result in a written outcome agreed by both parties.

---

9. Exit & Dissolution

If Party B exits or is removed:

- If Party B has completed 6+ months of active development:
  - Party B retains their 30% equity stake in the Platform
  - OR Party A may buy out Party B's stake at a price reflecting the total hours logged at the agreed notional rate, whichever is greater
- If Party B exits before 6 months:
  - Party B is entitled to compensation for hours logged at the agreed notional rate
  - Equity stake is forfeited

If Party A exits or dissolves the partnership:

- Party B retains full ownership of all code and technical assets they developed
- Party A retains the EntryLab brand and tenant data
- Platform IP is jointly owned unless bought out by either party

If both parties agree to dissolve:

- Platform assets (code, infrastructure, IP) are divided according to the equity split (70/30) or sold with proceeds divided accordingly

---

10. Intellectual Property

- All Platform code and technical IP developed by Party B is owned by the Platform entity (not by either individual personally).
- Party B grants no license for the Platform code to be used outside the Platform entity without written agreement.
- If the partnership dissolves, IP ownership follows the terms in Section 9.
- Party B retains the right to reference the Platform in their professional portfolio.

---

11. Non-Compete & Exclusivity

- Neither party will build or invest in a directly competing multi-tenant platform during the term of this agreement and for 12 months after exit.
- This does not prevent Party B from taking on other freelance/employment work unrelated to the Platform.

---

12. Confidentiality

- Both parties agree to keep all business, financial, and technical information related to the Platform and this agreement confidential.

- Neither party will share proprietary information with third parties without written consent.

---

13. Dispute Resolution

- Any disputes will first be addressed through direct discussion between both parties.
- If unresolved within 30 days, both parties agree to seek mediation before pursuing legal action.
- This agreement is governed by the laws of ****___**** (jurisdiction).

---

14. Amendments

- This agreement may only be amended in writing, signed (or digitally agreed) by both parties.
